Saturday Morning Workshop Line Up

Workshop A 8:45 to 10:15 am David Holt

True Life Storytelling

True-life stories unfold around us every day. They can be from our own lives, our family, local or world events and from historical happenings. We will begin by looking into the untapped stories within ourselves. We will learn where to find and how to recognize good stories in our own lives and how to craft them into tellable tales.

Workshop B 8:45 to 10:15am Donna Washington

Development of Character Voices & Sound Effects in Storytelling

Participants will learn how to use pitch, tone, and physicality to create distinct characters in their storytelling. We will also explore the best way to use sound effects.

Workshop C 10:30 to Noon Logie Meachum

Every Child Has a Story to Tell

An introduction to how even the youngest of children use family and story to connect. Participants will learn how to utilize the gift of family as a guide to teaching youth storytelling and good writing skills.

Workshop D 10:30 to Noon Andy Offutt Irwin

Using Humor and Personal Stories in Storytelling

Humor can be used as a tool for engaging audiences in much more serious business. Join Andy for this workshop in which he discusses the role of humor and comedy in storytelling and how to integrate it in your own work. Prepare to participate. This is a hands-on, or words-on, workshop.

All workshops will take place at the Central Branch of the Greensboro Public Libraries. Watch our Web page for details. <http://www.ncstoryfest.org/>
